- Free Technical advise & problem solving

Chevron ~ the legend lives on....

It has been an exciting winter so far with lots of restorations and rebuilds coming into the factory.

The **Chevron B24 Peter Gethin** car is well underway , we are very happy to be part of restoring this iconic car back to race condition

John Burton's Chevron B26 is now back in perfect order ready for an assault on the Martini Trophy in the coming season

Lola's—we seem to be full of Lola's at the moment. 3 fabrication chassis builds, a restoration a T142 successful crash repair & hopefully an entry for the well known Simoniz T163 for Goodwood Festival of Speed 2013

Formula 1— a very exciting car arriving in January for restoration. The original F1 drivers will be involved. In fact we're so excited there is going to be a Blog following this car as it is refreshed ready for racing

Check out our updated website + lovely new merchandise

Race Retro

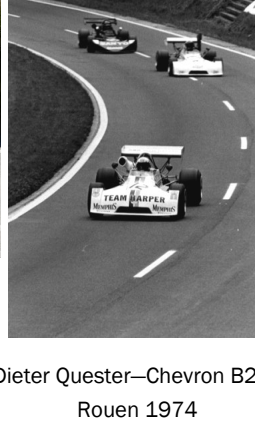

22-24 January 2013

We will be exhibiting in Hall 2, Stand B42

Coffee & biscuits available all day!

Hubert Camallieri—Chevron B39
See more on his great facebook page

Dieter Quester—Chevron B27
Rouen 1974

So gorgeous! Chevron B12

It was with great pleasure we were involved with the lovely authentic restoration of this special car along with Dr Jorg Thoma the owner.

Our Chevron Bodyshop did a wonderful job recreating the replacement long tail section by making two pieces and joining them together in the UK for a perfect fit in Germany

Happy Christmas & a Successful New Year For 2013 From all at the Chevron Factory & Team

New Chevrons

New Factory Works car builds remain a strong sector of our core business

We restrict them to only one or two per year so if you're thinking of a lovely bespoke Chevron B16, Chevron B8 or Chevron B19/21 or B36 for 2013 be quick
